

# *LET'S NOT CELEBRATE XMAS!*

## CHORUS:

*Have a happy secular holiday  
No need to worship, no need to pray  
Stay off your knees and you'll be OK  
Learn to celebrate Xmas the atheist way!*

The Star and the Baby and the Virgin Birth  
Tall tales that never happened on this earth  
They've caused more trouble than they're worth  
Thank Darwin we're more enlightened!

Snowmen are jolly and reindeer too  
And lights all green and red and blue  
But keep your beliefs out of public view  
And don't dare offend us with Jesus

It's OK to have Rudolph and his nose so red  
And Santa's just a big guy who drives a sled  
But we don't like the Baby on His little straw bed  
You know a lot of us find Him offensive

Old Scrooge was right and humbug's the word  
God become man? - why it's just too absurd  
Those gullible Christians must not have heard  
But we'll get the Supreme Court to teach them!

So cover your crosses, recycle your trees  
Don't let us catch you on your knees  
And remove that creche from your front lawn, please  
Or you'll be hearing from our lawyers

Let Moms and Dads all scream and shout  
We've convinced them that without a doubt  
Spending money is what Xmas is all about  
Forget that nonsense about Redemption
