[2] Snowmen are jolly and reindeer too / And lights all green and red and blue
But keep your beliefs out of public view / And don't dare offend us with Jesus!

[3] It's OK to have Rudolph and his nose so red / And Santa's just a big guy who drives a sled
But we don't like the Baby on His little straw bed / You know a lot of us find Him offensive

[4] Old Scrooge was right – humbug's the word / God become man? – why it's just too absurd!
Those gullible Christians must not have heard / But we'll get the Supreme Court to teach them!

[5] So cover your crosses, recycle your trees / Don't let us catch you on your knees
And remove that creche from your front lawn, please / Or you'll be hearing from our lawyers

[6] Let Moms and Dads all scream and shout / We've convinced them that without a doubt
Spending money is what Xmas is all about / Forget that nonsense about Redemption!
