The 'Ernestina' is a Grand Banks schooner with a long and illustrious history. Recently homeported in New Bedford, she's presently completing an overhaul and is planning on returning to the Massachusetts Maritime Academy. In years past she would make coastal cruises in the summer, but I'm not sure the old girl (100+ years old) is up to much sea time anymore. My wife and I did a cruise from Boston to New Bedford on her a while back, and it was indeed an unforgettable experience.
