Yet further evidence (as if any were needed by now) of just how desperate I can get in the search for tune names. This was inspired by an article in the local paper about animal rescues, one of which involved an owl that had somehow or other gotten tangled in a car's roof-rack. Unfortunately no details were provided, so it was left to our collective imaginations to figure out how the poor bird got itself into such a predicament. Anyway the wayward owl was freed, so the story ended happily (and I got a tune title).
