Anyone who takes offense at the name of this tune (and I know you're out there!) should know that it refers to an actual donkey named "White Lightning". This noble beast carried two young American musicians around Ireland for awhile until it disappeared from outside a pub one night. The creature's subsequent fate is (alas) unknown. (If you google "Voyage of the Heroes", you might be able to find my version - almost 100% historically accurate - of the whole story.)
